

Mobile App Analysis

Analyze the android app: app-release.apk (see moodle at Lab3.).

Which information can you gather?

What can you do to prevent apk installations?

What's the difference comparing to iOS apps?

Hint: Use this excel-file to go through a checklist defined by OWASP:

[https://github.com/TarkanY/owasp-mstg/blob/master/Checklists/Mobile App Security Checklist.xlsx](https://github.com/TarkanY/owasp-mstg/blob/master/Checklists/Mobile%20App%20Security%20Checklist.xlsx)
